Initial recovery, remained at 9.236 percent [1Q FY2020/21: 9.315 percent], a 0.85 percent decrease, which is expected to improve in later part of crushing season. This year sugarcane price hike is anticipated due to several factors including an increase in sugarcane support price of Rs. 225 per maund [CY2020/21: Rs. 200 per maund) as notified by the Government of Punjab, the price disparity among provinces, involvement of middleman and stiff competition between the millers. The Company through its sustained efforts of cane development, timely payments, financial support to growers and sugarcane throughout crushing season.

Financial Performance

The Company has posted top line of Rs 749.84 million [1Q FY2020/21: Rs. 158.79 million] mainly due to sale of 8,842.500 tons [1Q FY2020/21: Nil] white refined sugar. Despite increase in cost of production and depressed sale prices of white refined sugar, Bottom Line with 258 percent increase has posted a profit of Rs. 25.175 million [1Q FY2020/21: Rs. 7.032 million). The Company is current with its financial commitments and maintains a cordial relation with all its financial institutions on its penal.
