Directors' Report

Dear Members, Assalam-O-Alaikum

On behalf of the Board of Directors and myself, I am pleased to present before you the un-audited financial statements of the Company for the half year ended March 31, 2025, that has duly been reviewed by the external auditors.

Sector Overview

The crushing year 2024/25 brought a unique mix of challenges and opportunities for the sugar industry. Sugarcane cultivation decreased by 3.2%, with the sown area for 2024-25 remained at 1,210 thousand hectares compared to 1,250 thousand hectares last year. However, sugarcane production remained consistent at 83,500 million metric tons mainly due to increase in per acre yield. Unlike the previous years where the Government of Punjab sharply increased Minimum Support Price (MSP), during this crushing season of Yr.2024-25, government had not announced MSP thus leaving the cane price determination solely based on market mechanisms. Despite this significant change, a stable cane price was observed during the crushing season where farmers fetched an adequate return for their produce.

Operational Performance

The 2024-25 crushing season commenced on November 21, 2024—four days ahead of the previous season's start of November 25, 2023—demonstrating improved pre-season preparedness and operational agility. The mill operated for a total of 110 days during the current season, reflecting an extension of seven days over the prior year, indicative of enhanced operational efficiency and resource optimization. Despite absence of Minimum Support Price (MSP) for sugarcane, the market witnessed a pronounced and stable sugarcane price trend. The Company successfully navigated procurement challenges through timely deployment of targeted cane procurement initiatives and robust field management strategies. As a result, JSML achieved a recovery rate of 10.1%—the highest among all mills in the region. This milestone underscores the Company's operational resilience, strategic foresight, and unwavering commitment to continuous improvement in both efficiency and agricultural yield. It further reinforces JSML's leadership position within the industry and its capability to deliver superior performance amidst a dynamic market environment.

During the season, competition among regional mills resulted in higher than anticipated cane procurement costs. Nevertheless, the Company managed to crush 623,733 metric tons of sugarcane, a slight decrease compared to 657,997 metric tons in the previous year. Moving forward, JSML remains committed to optimizing milling efficiencies and securing high-quality varietal cane to sustain its competitive advantage and reinforce its position within the local sugar industry.

Following operational results for this crushing season have been achieved as compared to previous year.

Year Wise Performance	2024-25	2023-24
Season start	21-Nov-2024	25-Nov 2023
Season end	10 March 2025	7 March 2024
Operational crushing capacity	9,500	9,500
Effective working day	85.11	89.48
Total crushing days	110	103
Sugar Cane Crushed (MT)	623,733	657,997
Sugar Recovery percentage	10.104	9.85
Sugar Produced (MT)	63,026	64,874
Molasses recovery (Percentage)	3.729	4.02
Molasses produced (MT)	23,258	26,450

Management is pleased to disclose that once again Company has paid hundred percent (100%) of its cane liability within twenty-four (24) hours of closing the crushing season 2024/25, a fact that has been published in local newspapers and the same has been intimated to the Cane Commissioner Office vide final SCR-II report dated 16-March-2025.

The Company reported revenue of Rs. 5,659 million for the current period, reflecting a robust increase from Rs. 4,127 million in the corresponding period ended March 31, 2024. This growth outpaced general sector trends and was primarily driven by strong domestic sugar sales supported by favorable market demand as well as the efficient execution of the export quota allocated to the Company. Despite the substantial revenue growth, slight decrease in gross profit was witnessed in comparison to corresponding period last year. This reduction in profitability was primarily attributed to the impact of higher taxation during the period.

Going forward, the Company anticipates improved contributions from the sale of carry-forward stock. Additionally, the Company remains vigilant in monitoring domestic and international market developments and is committed to navigate evolving dynamics through operational efficiency and strategic planning to sustain its financial performance.

Auditors' Report

Auditors of the company are satisfied with the financial performance and its statements thereby authorized issuance of condensed interim financial statements to its members.

No Material changes and commitment affecting the financial position of your Company have occurred between the end of financial reporting period and the date of Director's Report.

Introduction

We have reviewed the accompanying condensed interim statement of financial position of Jauharabad Sugar Mills Limited ("the Company") as at March 31, 2025 and the related condensed interim statement of profit or loss and other comprehensive income, condensed interim statement of changes in equity and condensed interim statement of cash flows, and notes to the financial statements for the six-month period then ended (here-in-after referred to as the "interim financial statements"). Management is responsible for the preparation and presentation of this interim financial statements in accordance with accounting and reporting standards as applicable in Pakistan for interim financial reporting. Our responsibility is to express a conclusion on these financial statements based on our review. The figures of the condensed interim statement of profit or loss and condensed interim statement of comprehensive income for the quarter ended March 31, 2024 and 2025 have not been reviewed, as we are required to review only the cumulative figures for the six-month period ended March 31, 2025.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagement 2410, "Review of interim Financial Information Performed by the Independent Auditor of the entity". A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial statements is not prepared, in all material respects, in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting.

The engagement partner on the review resulting in this independent auditor's review report is Mr. Ibne Hasan.

2 Basis of preparation

2.1 Statement of compliance

These Condensed interim financial statements comprise the condensed interim statement of financial position of the company as at March 31, 2025 and the related condensed interim statement of comprehensive income, the condensed interim statement of cash flows and the condensed interim statement of changes in equity together with the notes forming part thereof.

These condensed interim financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:

- International Accounting Standard (IAS) 34, Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) and Islamic Financial Accounting Standards ("IFAS") issued by the Institute of Chartered Accountants of Pakistan as notified under the Companies Act, 2017;
- Provisions of and directives issued under the Companies Act, 2017.

Where the provisions of and directives issued under the Companies Act, 2017 differ with the requirements of IAS 34, the provisions of and directives issued under the Companies Act, 2017 have been followed.

These condensed interim financial statements do not include all of the information required for annual financial statements and should be read in conjunction with the annual audited financial statements as at and for the year ended September 30, 2024. Comparative condensed interim statement of financial position is stated from annual audited financial statements as of September 30, 2024, whereas comparatives for condensed interim statement of comprehensive income, condensed interim statement of cash flows and condensed interim statement of changes in equity and related notes are extracted from condensed interim financial statements of the Company for the Six month period ended March 31, 2024.

2.2 Basis of measurement

These condensed interim financial statements has been prepared under the historical cost convention except for the Company's freehold land, building and plant & machinery which are stated at revalued amount.

2.3 Functional and presentation currency

These condensed interim financial statements are presented in Pak Rupees which is the functional and presentation currency of the Company.

2.4 Critical accounting estimates and judgments

Judgments and estimates made by management in the preparation of these condensed interim financial statements are the same as those applied to the preceding annual published financial statements of the Company for the year ended September 30, 2024.

3 Accounting policies and computation methods

- 3.1 The accounting policies adopted for the preparation of these condensed interim financial statements are the same as those applied in the preparation of preceding annual published financial statements of the Company for the year ended September 30, 2024.
- 3.2 There were certain other new standards and amendments to the approved accounting standards which became effective during the period but are considered not to be relevant or have any significant effect on the Company's operations and are, therefore, not disclosed.

4 Seasonality of operations

The Company is inter-alia, engaged in manufacturing of sugar for which the season begins in November/December and ends in March/April. Therefore, majority of the expenses are incurred and production activities are undertaken in first half of the Company's financial year thus increasing volume of inventories and current liabilities at the end of the six months.
